

SKYSHARP SECURITY SERVICES

COMPANYS GROWTH AND NEW BEGINNINGS

COMPANYS GROWTH IS TOUGH BUT WE ARE WINNING

As we look back on the past years, it is pleasing to be able to say that despite the tough economic environment SKYSHARP has managed to maintain its strong growth track record.

Where is the growth coming from? It is absolute testimony that much of the new business that we have had has come from existing customers, a sure sign that they are very satisfied with the service provided to them and happy to entrust more business with us.

FEEDBACK

SUPPORT FOR OUR PEOPLE

SKYSHARP aims to take its responsibility to society seriously. Part of the way we do this is to contribute to worthy causes and so we encourage our staff to do the same.

*"A fellow who does things that count, doesn't usually stop to count them."
Albert Einstein*

*"True
Charity, a
plant
divinely
nursed."
William
Cowper*

COMPANY

LIFTING THE LID ON CONTROL

One of the major functions of the control room is to accept details of incidents from our sites. These can range from officers stopping theft to an evacuation, the list goes on. All of these calls are logged and have to be escalated quickly by the management. Incident management is important to the business and as a result, it is imperative that the phone lines are not at all times blocked with questions to do with payroll, personnel or rota as these can be dealt within out of office hours or arranged appointments.

BOOK ON/OFF PROCEDURE.

Guards seem to be forgetting that it's a requirement that they book on and off

Guards seem to be forgetting that it's a requirement that they book on and off every time that they are on shift. So therefore we urge that this is put on perspective
