

# Summer 2015 Newsletter

Skysharp Security Services limited  
*OUR BUSINESS IS TO PROTECT YOUR BUSINESS*

## DIRECTORS MESSAGE

Summer is here, time for us all to make the most of the sun, have fun and enjoy all that we have achieved so far. We should use this time out to reflect on where it all started for Skysharp security and your businesses.

Furthermore, I hope you enjoy these summer holidays while they last as after it is back to hard work and dedication.

Jaz Sandhu (Managing Director)

## ENSURING YOUR BUSINESS IS SAFE THIS SUMMER

Skysharp Security provide services to businesses such as construction sites , which we take full control of . We work to pinpoint all security risks and vulnerable areas , and we do this by placing clock points to ensure the guard patrols at 30 minutes or fewer intervals through day and night.

If you own a construction site or any other business you may need to invest in this type of security as these types of businesses have become easy targets for thieves.

Before setting off for your holidays in the sun , it would be wise to ensure your business is safe and secure , for your benefit and your workers.
